

AIR FORCE

Large RC military helicopter with double rotors is ready for combat

14+
FOR AGES

Simple operation, realistic performance

Fully constructed and ready to fly, the Swann Air Force looks and flies like a real military troop-carrying helicopter. The high powered 27MHz radio frequency allows for long haul flying indoors up to 100ft (30m) away.

Complete control in your hands

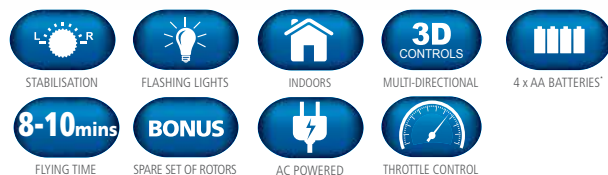

The advanced 3.5 channel remote control operates 6-way up/down, forward/backward, left/right flight movements and vary flight speed with the throttle control stick. Once you've mastered the maneuvering get set for the flight of your life!

Challenging to fly & tons of fun

The Air Force is designed for seasoned chopper pilots looking for their next combat assignment. The digital trim control will assist you to stabilize the flight level and stay in control. In no time at all you will be surviving death-defying combat missions behind enemy lines!

Simple to setup & charge

It's easy to get started. Simply add 4 x alkaline AA batteries to the remote control then use the included cables to charge the chopper for up to 90 minutes from the AC power adapter. Once charged, you're up and away with up to 8-10 minutes full-on flying time per charge!
