DESCRIPTION

The Tucano Work Out slim notebook case is made especially for your MacBook Pro. The internal notebook compartment features their innovative Anti-Shock System® – an additional layer of shock absorbing pads to further protect against jolts and bumps. The quick access compartments located in the front and rear of the bag, along with the added pull out pocket, provide plenty of room for all your added accessories. The removable shock absorbing shoulder strap, with swivel clips that prevent twisting, can be easily tucked away for carry case convenience. Available in a range of colours to suit every occasion.
