

Backup and Share Your Videos, Music and More

At last, home network storage that's comprehensive and easy to understand. NETGEAR Stora lets you store, share and protect music, movies, photos and data using any device on your home network and over the Internet. Listen to your music collection while traveling. Share a private photo album with family and friends. Drop photos into Facebook with ease. Automate backup from the PCs and Macs in your home to eliminate data loss worries. NETGEAR Stora even supports a second hard drive that mirrors the first, on the fly, ensuring even greater reliability for those irreplaceable digital assets. Unleash the power of your home network with Stora.

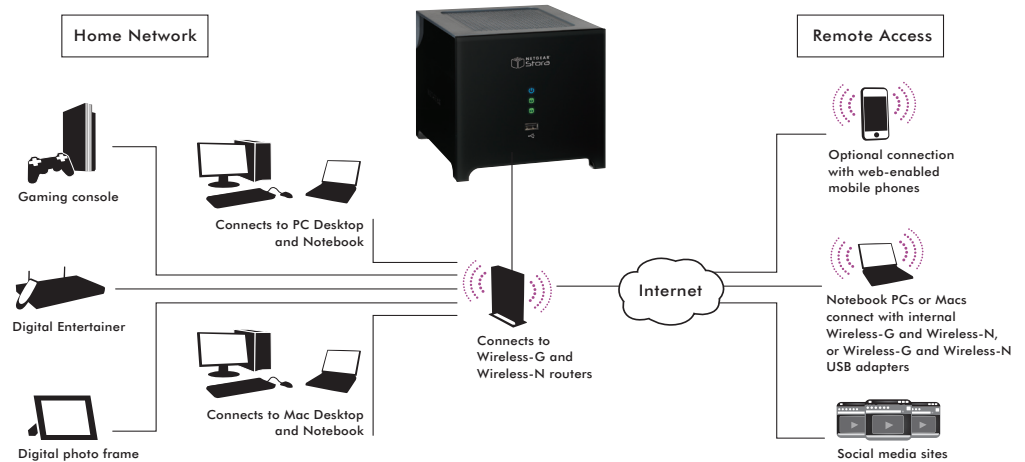

Store, Share and Protect

Stora puts music, photos, videos and other important data at the heart of your home network

- Centralize all your digital media (videos, music, photos) in a single, safe location
- Share a photo album with selected friends and family through selected user access controls
- Watch your movies directly streaming from home to any Internet-connected device
- Stream music in the subway or car on your iPhone
- Protect all your valuable documents by backing them up on the optional 2nd bay
- Swap or add a hard drive in minutes without using any tools.
- Integrates with Facebook, iTunes®, Flickr™¹ and Web-enabled phones¹

NETGEAR Stora: Your Home Network's Virtual Warehouse

NETGEAR Stora is the ideal network storage solution

Easy to Use

Experts need not apply. This system is designed for first-time users who don't want to learn server administration as a hobby. Plug in the system, run the CD - that's it. Now you can share data between home computers, automatically back them up, share photos over the web and access your content from other network devices. Even upload items to Facebook!

Connect from the Internet to view, share and play files when you are away from home

View it your way

Go for the traditional file and folder list, or get modern and flip through thumbnails smoothly and quickly.

Enjoy content at home and on the road

Connect over the Internet to play media from your personal library. Never be without the latest and greatest updates to your song lists, movies or photos!

Upload files with ease

Drag and drop from your desktop - anywhere - back home to your Stora. Never be without the data you need again!

Plug-and-play Protection

Putting all of your precious data eggs in one digital basket might be more than you want to risk. But don't worry, because Stora supports a second hard drive to mirror the first. You can double your protection whenever you want. And you can do it on the fly, without copying or moving any data.
