

IOMEGA® STORCENTER™ PRO ix4-200r NAS SERVER

AFFORDABLE RACKMOUNT NETWORK STORAGE FOR SMALL TO MEDIUM-SIZED BUSINESSES OR REMOTE OFFICES

- » Enterprise-class data storage, management and protection with EMC® LifeLine™ management software and EMC Retrospect® backup software
- » Cross-platform functionality – supports PC, Mac®, and Linux® clients, offers simultaneous NAS and iSCSI block-level access, and is certified VMware® ready
- » Fast throughput with Gigabit Ethernet connectivity and high-performance embedded architecture
- » Advanced data protection with support for RAID 5 and RAID 10
- » Powerful functionality in a space-saving 1U rackmount form factor
- » Available in 2TB and 4TB capacities

STORCENTER PRO ix4-200r NETWORK STORAGE

EASY, AFFORDABLE NETWORK ATTACHED STORAGE SUPPORTING PC, MAC AND LINUX CLIENTS

POWERFUL FEATURES

With built-in enterprise-class EMC LifeLine software, the StorCenter Pro ix4-200r makes it easy to store, protect, access and share your digital content. And robust remote access capabilities allow you to manage your device or access your files from anywhere.

ADVANCED DATA PROTECTION

Assure data integrity with out-of-the-box RAID 5 or RAID 10 protection, UPS support in the event of power loss and award-winning EMC Retrospect backup software. Plus, hot-swap SATA II drives and automatic RAID rebuild help minimize downtime.

BUILT-IN FLEXIBILITY

The StorCenter Pro ix4-200r supports PC, Mac, and Linux NAS clients, as well as iSCSI, VMware environments and Active Directory (Users and Groups), making it an ideal choice for virtually any environment. It even captures and stores video from IP security cameras without a dedicated computer.

EASY TO USE

Set up the StorCenter Pro ix4-200r in minutes. Simple four-step setup! Automatic configuration makes network file sharing fast and easy, while event logging, email notification and a system dashboard simplify system monitoring and management.

Powerful, Affordable Data Storage, Sharing and Protection

The Iomega® StorCenter™ Pro ix4-200r NAS Rackmount Server offers powerful, affordable network storage for small to medium-sized businesses or remote offices. Powered by enterprise-class EMC® LifeLine™ software, the StorCenter Pro ix4-200r provides fast data throughput; easy file sharing; iSCSI support; RAID 5, RAID 10, or JBOD configurations; and UPS support for additional data protection. Hot-swap SATA II hard drives minimize downtime and allow for easy replacement. The StorCenter Pro ix4-200r is packed with advanced features including Windows Active Directory support, remote access and management, folder quotas, and IP security camera support. And with award-winning EMC® Retrospect® backup software and RSA® BSAFE® encryption for protected installs and upgrades, the StorCenter Pro ix4-200r offers highly advanced backup and security. VMware® certified for iSCSI and NFS on ESX server 3, the StorCenter Pro ix4-200r is available in 2TB and 4TB capacities, supporting PC, Mac® and Linux® clients.

FEATURES & BENEFITS

Multi-platform, Multi-technology Support

- » Store and share files among networked **PC, Mac** and **Linux** computers.
- » Utilize storage more efficiently, especially database, email application and backup performance, with **iSCSI block-level access**.
- » Add shared storage to your virtualized environment with **VMware certified** support for iSCSI and NFS on ESX Server 3.
- » Simplify user and group management with **Windows Active Directory** support.
- » Additional supported protocols include **CIFS, FTP, HTTP, AFP, and SNMP**.

Superior Data Protection

- » Centralize, store and manage your **business-critical data** on one secure device with EMC LifeLine software.
- » Schedule automatic daily backups using integrated **EMC Retrospect backup software**.
- » Protect your business from data loss with **RAID 5 or RAID 10** in the event of a drive failure, and unattended system shutdown via the USB port in the event of power failure.
- » Other security features include robust username and password authorized access, and **RSA® BSAFE® encryption** technology for hacker-free installs and upgrades.

Streamlined Monitoring and Management

- » Easily monitor and manage the StorCenter Pro ix4-200r from any networked computer using **remote access capabilities**.
- » Review device, space utilization, peripheral and backup status information with the **system dashboard**, a one-stop-shop for updates.
- » Stay on top of system performance with **event logging** and **email alerts**.
- » Allocate storage capacity wisely with **folder quotas** for shared storage folders.

Advanced Features, Advanced Functionality

- » **Media:** Save, store and play multimedia files from the StorCenter Pro ix4-200r on a variety of devices with Universal Plug and Play (UPnP™) support and DLNA® certification. The StorCenter Pro ix4-200r also supports PTP and Bluetooth® (optional adapter required) upload.
- » **Printing:** Eliminate dedicated print servers with print sharing capabilities for up to four USB printers.
- » **Throughput:** Achieve fast data throughput and high performance based on Gigabit Ethernet connectivity and embedded architecture.
- » **Expandability:** Add storage capacity by connecting external USB hard disk drives.
- » **Surveillance:** Connect Axis® network security cameras to capture and store video without a dedicated PC.
- » **Compatibility:** The StorCenter Pro ix4-200r is compatible with today's most common backup software titles, web browsers, media devices and computers.
