

FreeAgent Theater+™

HD MEDIA PLAYER

Perfect for when you need to:

- Enjoy and share your photos, movies and music on your TV in the comfort of your living room
- Access content from storage devices on your network
- Access Internet content such as pictures, weather, share prices and more on your TV
- Connect a digital camera or external storage device directly to enjoy media on your TV

Video: HDMI, Component video, Composite video

Audio: HDMI, Optical S/PDIF audio, Stereo RCA

Data: USB, Ethernet

The easiest way to move and enjoy your photos, movies and music from your PC or Mac to your TV

The FreeAgent Theater+ HD media player provides an easy way to store and move your photos, movies and music from your PC or Mac® computer to your TV, allowing you to share and enjoy your digital media in a comfortable, social environment such as your living room.

From your home computer, use the included synchronisation software to copy all of your media files to the FreeAgent Go™ portable hard drive* automatically, or simply drag and drop files directly to the drive. Then, by docking the FreeAgent Go drive into the FreeAgent Theater+ HD media player, connected to the TV, your entire media library is placed at your fingertips with 1080p high-definition playback and crystal clear surround sound audio. With the front-mounted USB port, you can also plug your digital camera, USB flash drive or external USB hard drive directly into the FreeAgent Theater+ HD media player and enjoy the same high-quality viewing experience.

With the built-in Ethernet port, the FreeAgent Theater+ HD media player can connect to your home network to access content from shared devices, including networked computers and NAS (network attached storage). The network connection also allows the FreeAgent Theater+ HD media player to access Internet content such as pictures, weather, share prices and more.

Navigating through your media library is intuitive, with the DVD-like user interface and compact remote control. Browse your files with a familiar folder structure view or thumbnail view, or filter by media type such as movies, pictures or music.

Highlights

- Easy enjoyment of your photos, movies and music on your TV
- HDMI connectivity and 1080p HD video playback
- Dolby® Digital and DTS® audio support
- Ethernet connection for accessing shared content on your network
- Unique docking system that eliminates the need to fumble with cables and connections
- Front-mounted USB port for digital cameras and additional storage devices
- Synchronisation software for PC and Mac computers included
- Intuitive user interface with DVD-style navigation
- Windows® XP, Vista®, Windows® 7 and Mac OS® X compatible

* FreeAgent Go portable hard drive sold separately
