

## AVerTV Duo Hybrid PCI-E II (A188)

*Dual Tuner ! Double Your Entertainment !*

AVerTV Duo PCI-E series adopt the brand-new PCI Express interface, which is quicker than the PCI bus in transmission speed, in theory offering up to 4 times comparing to PCI Interface. The AVerTV Duo PCI-E series ensure continuously clear video and occupies less CPU resources whilst processing transmission.

### Dual TV Signal Input

Tired of switching connectors between analog to digital? No worries ! AVerTV Dual Hybrid PCI-E II allows an exclusive TV signal input. Just plug once, you will never have to pull it out or switch signal again and again.

### Remote on

What's new? A real surprise ! AVerTV Duo Hybrid PCI-E II provides you the new excellent feature—**Remote on**. By using this, you can turn on your PC by remote control and let your TV viewing experience more convenient.

### Enjoy your shows on iPod with real-time H.264 recording technology

The latest MCS offers advanced real-time H.264 recording compression technology up to resolution of 320X240 iPod video format recording. It also saves more than 4X hard disk spaces comparing with MPEG-2 format.

### Game Console Compatible

AV plug-in supports on Vista MCE platform for professional game console and video camcorder without any lag when they play games on MCE platform.
