

ORICOM ezy series

Specifications

ORICOM ezy100

GSM mobile phone
with emergency call function

Finally a mobile phone that's ezy!

The Oricom ezy100 GSM mobile phone is a simple, easy to use mobile for those that just want to make & receive calls/text messages, without paying for other phone features they never use.

The large easy to read display and high visibility buttons make the Oricom ezy100 the perfect mobile phone for seniors and those suffering from hearing loss and or low vision.

IMAGE SHOWS ACTUAL SIZE

Ezy to hear

Hear loud and clear with up to +25dB of earpiece volume boost and hearing aid compatible. Never miss a call with a super loud ringer (up to +100dB) and a very powerful vibration alert.

Ezy to read display

See clearly with the large high contrast backlit display and large text size.

Ezy to use keypad

Backlit big buttons for easy dialling even in low light situations.

Ezy help function

In an emergency get help quickly - simply slide the help switch to automatically dial a sequence of up to five numbers.
