STABILISATION	FLASHING LIGHTS	INDOORS	3D CONTROLS MULTI-DIRECTIONAL	4 x AA BATTERIES*
8-10mins FLYING TIME	BONUS SPARE SET OF ROTORS	AC POWERED	2 speed TAIL ROTOR	

Feel the need for speed

The Swann Air Attack is a true predator of the skies. The powerful 27MHz radio frequency allows for flying over long distances up to 100ft (30m) away. It's built for speed and maneuverability indoors.

Complete control in your hands

The advanced 3.5 channel remote control operates 6-way up/down, forward/backward, left/right flight movements and the ability to change flight speed via the tail rotor control. Once you've got the maneuvering down pat, get ready to dominate any aerial battle.

Easy to fly & tons of fun

The Air Attack is perfect for intermediate pilots with Swann's Easy-Fly Gyro technology assisting you to self-stabilize the flight level and keep you in control. With some practice you will be performing death-defying turns, dives and stunts that will blow you away!

Simple to setup & charge

It's easy to get started. Simply add 4 x alkaline AA batteries to the remote control then use the included cable to charge the chopper for up to 90 minutes from AC mains power. Once charged, you're up and away with up to 8-10 minutes combat flying time per charge!

REMOTE CONTROL
