RC-341

The Elite product series, characteristic of its superior thermal solution, is now presenting yet another mini tower case - Elite 341. Following eminent traditions from the Elite series, Elite 341 is equipped with a 120mm rear fan, offering the best ventilation while maintaining a silent cooling solution. The mechanical design of the side panel and retaining keyholes for Kensington security lock are special features of Elite 341 for better protection of your PC.

Features

- Tool-Free mechanical design for quick assembly and maintenance.
- Industry-standard Kensington slot and mechanical design for security.
- Meshed front panel design provides the superior airflow and maximum cooling performance.
- Built-in washable front air filter. Modern and stylish design.
- 120mm fan in the rear to give your PC the best ventilation while maintaining a silent cooling solution.
